

GROUPMAIL

MAKING EMAIL WORK FOR YOU

Saibex Network range of products you can take the effort out of your marketing, bulk email and mobile SMS text message requirements with complete ease and total peace of mind.

Email is without doubt the most important Internet technology available, with that in mind you need to make sure that you have the right tools available if you want to use it for your benefit.

With GroupMail you can easily

- ✓ Send highly formatted professional messages that are personalized for each of your recipients
- ✓ Manage an unlimited number of fully customizable groups/lists with an unlimited number of recipients in each
- ✓ Keep your valuable recipient details private and completely secure
- ✓ Run and maintain CAN-SPAM compliant Newsletters with powerful automated subscription, removal and filtering support
- ✓ Handle bounces automatically and verify recipients with ease
- ✓ Send messages directly to your recipients from your desktop, or through a dedicated e-mail server using multiple connections. Works with MSN and practically all corporate email systems
- ✓ Send personalized wireless mobile SMS text messages to recipients using our unique free Email to SMS gateway tool
- ✓ Prepare and schedule messages for delivery any time in the future
- ✓ Prepare and send your messages in practically any language and with any encoding
- ✓ Fully control and target your mailings with powerful filters, in-line message scripting, reply management controls, customizable headers and in-depth logging & reporting
- ✓ Work with existing customer lists, data and information in practically any format (databases, files - including CSV, address books and more)
- ✓ Do follow-up mailings with precision, resume from failures with complete peace of mind and have access to all send
- ✓ Related details in highly defined reports and logs
- ✓ Extend functionality through a growing range of add-ons
